

1 Summarize

1.1 1

Direct Purchase Share of Insured Over Time

1.2 2

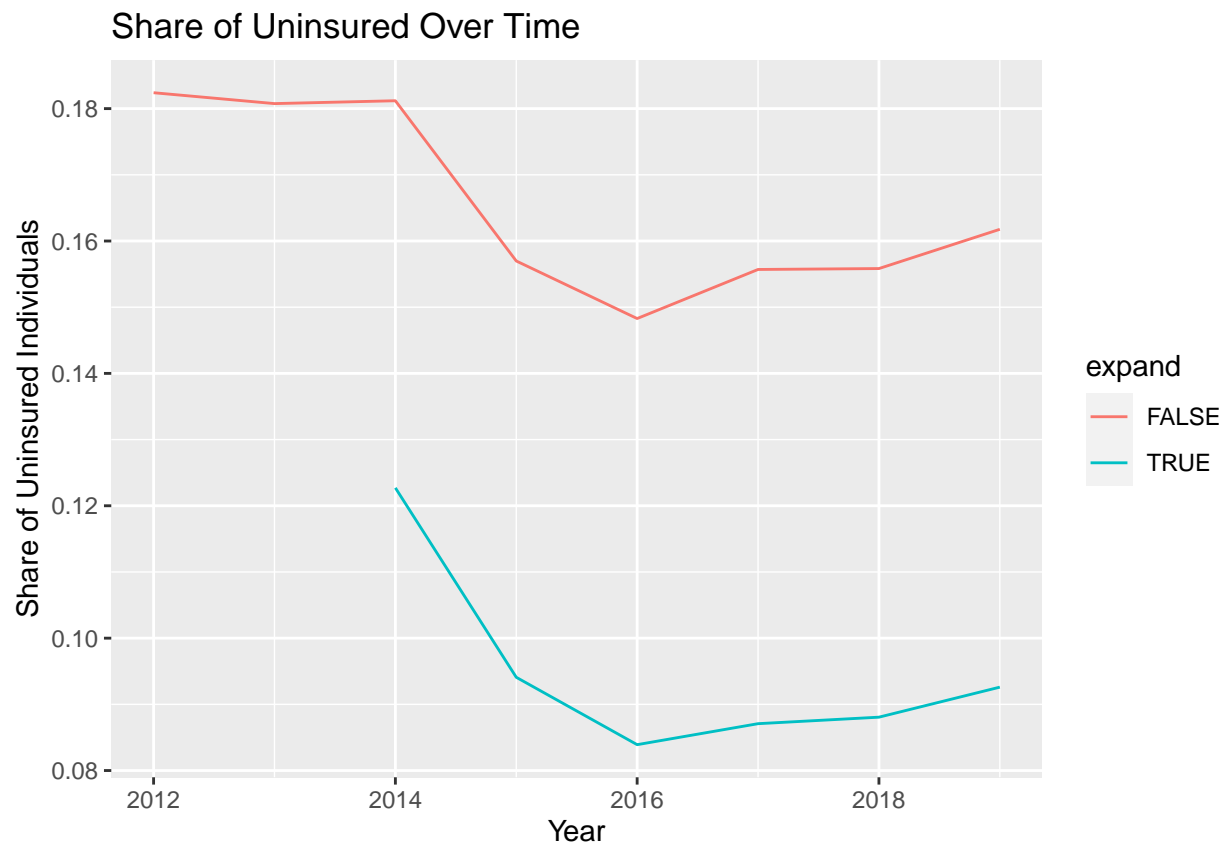

Direct purchase insurance increased as a result of the Affordable Care Act and being able to purchase insurance off of state based healthcare exchanges. After a few years, programs such as reinsurance and risk corridor were removed from the exchanges. These were programs implemented in order to stabilize premiums, as stated by CMS. It is then likely that after these programs were removed, premiums may have increased resulting in consumers leaving the exchanges and leading to a decrease in direct purchasing.

1.3 3

Medicaid Share of Insured Over Time

1.4 4

2 ATE Questions

2.1 5

Table 1: Uninsurance Rates for Medicaid Expansion States vs. Non-Expansion States

	FALSE	TRUE
2012	0.1639289	0.1787624
2015	0.1418070	0.1096019

2.2 6

	(1)
(Intercept)	0.224 (0.009)
postTRUE	-0.058 (0.010)
